Professional Summary

I am an IT professional with 3+ years of experience building websites and supporting over 50 students and clients. I am skilled in WordPress, HTML, CSS, JavaScript, and SEO, and have a proven record of quickly learning new tools and platforms. While I have not yet worked with Webflow, Shopify, or GSAP, my experience with WordPress, custom themes, and web animations shows I can adapt fast. I am comfortable with no-code tools, have collaborated with designers, and am eager to learn new systems like Webflow, Figma, and automation platforms. My hands-on approach, strong troubleshooting skills, and passion for web technology make me a great fit for fast-paced teams.

Work Experience

IT Administrator & Course Facilitator – BSG and Technologies

Feb 2025 – Present

- Built and managed SEO-friendly websites and learning platforms for 50+ students and staff using WordPress and custom templates.
- Developed site features with HTML, CSS, PHP, and JavaScript, focusing on responsive and easy-to-use designs.
- Used SEO tools to improve site speed and search rankings.
- Kept plugins, backups, and content up to date across platforms.
- Worked with teams to make sure content and design matched best web practices.
- Supported cloud web services and email using Linux servers, cPanel, and Google Workspace.
- While I have not used Webflow or GSAP yet, my experience with WordPress and web animations means I can learn these tools quickly.

Founder & Freelance IT Support Technician – del IT & Web

April 2022 – Feb 2025

- Designed and managed client websites using WordPress and Elementor, with a focus on SEO and user experience.

- Customized themes, installed plugins, and set up hosting (Hostinger, GoDaddy, Webway).
- Trained business clients to manage their own content and improve web visibility.
- Created web pages and email campaigns for digital marketing.
- Edited images and content using GIMP and Photoshop.
- Handled Linux server tasks for site deployment.
- I am new to Shopify and Liquid, but my experience with WordPress and e-commerce basics will help me learn quickly.

Private Tutor – Self-Employed

February 2016 – March 2022

- Tutored over 50 students in Mathematics and Sciences, helping them achieve better results.
- Built strong client relationships and improved learning outcomes through simple, clear strategies.
- Created learner-focused schedules and tracked progress.

Educator & ICT Lab Assistant – Kwa-Giba High School

April 2009 – December 2012

- Supported ICT Department and coordinated lab activities
- Installed and maintained lab hardware and software
- Ensured secure systems through antivirus deployment, firewall setup, and user access controls
- Delivered full-time classroom teaching in Mathematics and Sciences

Featured Projects

Professional Profile Automation System

Legendary automation system with GitHub as single source of truth for managing professional materials across platforms

Technologies: Node.js, GitHub Actions, JSON, HTML/CSS, Git, Automation

Highlights:

- Single source of truth architecture: Update once, deploy everywhere
- Automated CV generation with responsive HTML design and LinkedIn optimization
- GitHub Actions workflow for continuous integration and deployment
- Amateur-friendly documentation with 60%+ success rate for new users
- Demonstrates technical skills while solving real-world professional needs

Purpose & Perspective Blog

Full-stack blog application with intelligent fallback systems and comprehensive security features

Technologies: Node.js, Express, MongoDB, EJS, Security Implementation

Highlights:

- Dual-storage architecture ensuring 100% uptime
- XSS protection and rate limiting implementation
- Auto-retry connection logic with health monitoring

Floral Kingdom Tours

Headless CMS tourism platform with React frontend and WordPress backend

Technologies: React, WordPress, Tailwind CSS, Vercel, REST API

Highlights:

- Environment-aware API integration with fallback handling
- Responsive carousel with mobile optimization
- Complete booking system with form validation

Learning Management Systems

Educational platforms with course management and student progress tracking

Technologies: WordPress, Tutor LMS, Educational Technology

Highlights:

- Supporting 50+ students in remote and underserved backgrounds
- Real-time user feedback integration
- Offline/online sync capabilities

Kubernetes Learning Journey

Hands-on learning journal documenting containerization and orchestration exploration

Technologies: Kubernetes, Docker, Linux, DevOps

Highlights:

- Complete setup guides for Minikube and kubectl
- Practical deployment experiments and troubleshooting
- ConfigMaps and Secrets implementation documentation

Technical Skills

Programming & Web Development

Frontend: HTML, CSS, JavaScript, React, EJS, Tailwind CSS
Backend: Node.js, Express.js, PHP
Databases: MongoDB Atlas, SQL, MySQL

Infrastructure & Cloud

Operating Systems: Windows, macOS, Ubuntu Linux
Cloud: Azure, GCP, DNS, VMs, IAM
Networking: TCP/IP, OSPF, RSTP, VPN, Firewalls

CMS & Digital Tools

CMS: WordPress, Headless CMS, Custom Post Types
SEO: Yoast, Rank Math, Google Analytics
Design: Photoshop, GIMP, Elementor

Education & Certifications

CompTIA Certifications (2021–2024): A+, Network+, Security+, Cisco CCNA

Web Technologies: WordPress Development, Kubernetes LFS250, KCNA

Durban University of Technology (2012–2015): S4 Electronic Engineering (Pending In-service Training)

Command Secondary School (2004): National Certificate (Matric)

Languages

English: Fluent | **isiZulu:** Conversational | **French:** Conversational
